

Anti - Cell Concept for Disappearance and Einstein's Time Dialation to Produce 14 Years Child

Dr. P.Seshu Mani¹, GJC, Vidavalur²
^{1,2}GJC Dagadarthi, Nellore

Abstract - Try to evaluate Anti - Cell concept from which disappearance of mass i.e., man into energy and vice versa to be imagined. Using the principle of time dilation how to produce 14 years child theoretically is calculated.

INTRODUCTION

In this universe every particle has its own Anti - Particle except elementary particles. The particle and Anti - Particle exist sometimes as pairs. Under suitable conditions the particle and Anti - Particle combine to form energy and for some special conditions also energy dissociated to form particle and Anti - Particle.

ANTI - PARTICLE CONCEPT

The Particle combined with Anti - Particle, their mass annihilated energy appeared. For example, Electron and Positron combination gives 2-Gamma rays

Electron + Positron > 2-Gamma rays

Under certain conditions and circumstances energy, in the present case 2-gamma rays dissociate to form particle and Anti - Particle here Electron and Positron are again formed.

2-Gamma rays > Electron + Positron

ANTI - CELL CONCEPT

Cell is the basic structure of a human body. The cell consists of Golgi bodies, Chromatin, Nucleus, Vacuoles, Cytoplasm, Centrosomes, Lysosomes, Plasma membrane, Rough Endoplasmic Reticulum, Smooth Endoplasmic Reticulum, Mitochondria etc. parts. The collection of cells together to perform certain activity is called tissues. Number of tissues work collectively to form an organ. In our body Lysosomes are suicidal bags under certain conditions they produce powerful acids and destroy all the cell parts in another way Lysosomes eaten all the cell parts. In our body, in any condition these Lysosomes create

a cell? Or any other cell part in our body is ready to create a cell? or cell division increases abnormally to produce a person in a day under suitable conditions? Ancient Indian's used a special technique to separate soul from our body and move our soul in the entire universe, after completion of work soul added to our body. This technique is called Parakayapravesam given in life history of Sri Aadisankaracharya, a saint of Hindu's.

I assumed that Cell in our body has Anti - Cell present in our body or created externally under suitable conditions. The cell and Anti - Cell of a human body are combined; both are disappeared to form energy. Then a person travels with a velocity less than /equal to/greater than the velocity of light, so moves anywhere in this universe. For example, see the moon surface/go to near planet/ observe near star/if possible, travel to the distance star etc. works without body, because energy has scope to move all over the world and see all the things directly and finally came to the earth surface without any problem. The total energy combined in a room or any place again body can be produced.

ARTIFICIAL BABY CRETAEED BY DIFFERENT TECHNIQUES

Now there are so many types of techniques are discovered to prepare artificial zygote, for example test tube baby is created after one week and so on placed on the fetus of mother/women the child is growing next nine months naturally. After birth baby brain grows rapidly within few months (12+) they can talk and walk etc. Recently a born baby walk on the floor for supporting a hand given to her is a miracle. The brain growth of that baby is greater than ordinary baby, then what is difference of brain growth we can estimate. This is a special case, or any baby can grow like this by giving sufficient food / sufficient medicine

(proteins, minerals etc. useful for the growth of a brain maturity of a born baby).

WHAT IS TIME DIALATION

Time Dilation concept, came from Einstein's theory of relativity explained that a person moves with a velocity equal to velocity of light his length becomes zero means we cannot see a person, mass becomes infinity mass increases abnormally and time becomes infinity means there is no change in time. Then find, with what velocity moving a zygote using time dilation to produce a child at the age of 14 years discussed below.

HOW TO CREATE A TEENAGER CHILD

A teenager child at the age of fourteen years grown artificially by using Time Dilation process is as follows

$$T = T_0 / (1 - V^2/C^2)^{1/2}$$

Here T is the estimated time

T₀ is the present time

V is the velocity of Zygote and

C is the velocity of light

In the present calculation the artificial baby created at the age of 14 years, for that velocity of zygote be calculated as given below

$$T = 14 \text{ years} = 14 \times 365 \text{ days (approximately)}$$

$$T_0 = 30 \text{ days}$$

$$V = ?$$

$$C = 3 \times 10^8 \text{ m/s}$$

Substituting these values in the above equation we get

$$14 \times 365 = 30 / (1 - V^2/C^2)^{1/2}$$

$$14 \times 365 = 30 \times C / (C^2 - V^2)^{1/2}$$

$$(C^2 - V^2)^{1/2} = 30 \times C / 14 \times 365$$

$$= 30 \times C / 5110$$

$$= 0.00587084149 \times C$$

Squaring on both sides, we get

$$C^2 - V^2 = 3.44667798 \times 10^{-5} \times C^2$$

$$C^2 (1 - 3.44667798 \times 10^{-5}) = V^2$$

$$V^2 = (0.999965533) C^2$$

$$V = 0.999982766 \times C$$

$$V = 0.999982766 \times 3 \times 10^8$$

$$V = 2.9999483 \times 10^8 \text{ m/s}$$

If Zygote moves with a velocity equal to 2.9999483×10^8 m/s, then fourteen years child developed within one month. In our time we must give nutritious food every day, then child obtained at the age of 14 is healthy.

CONCLUSION

There must be compulsory Anti-Cell exists, we must try to extract that Anti-Cell in our body or created Anti-Cell or small change in Lysosomes becomes Anti-Particle try in this way. The combination of Cell and Anti-Cell creates an energy, that energy moves easily with high speeds, then we go to see extra-terrestrial objects without body, and again came to earth focused on a room / place becomes massive. Just like photons (light Particles) sometimes behaves as particle and sometimes behave like wave i.e., dual in nature.

If we create a Zygote artificially and moves with a velocity equal to 2.9999483×10^8 m/s, then we can create a child at the age 14 years is possible. Try in this route also, the child create is mentally matured at the time of coming out of our experiment. Generally, the child physical appearance is same as normally born child at the age of 14 years. This entire phenomenon in a pleasant place we get a very good child useful to our society is obtained.
