

# The Indian Politics

Meet Parmar

*Politics, Sigma, Vadodara*

## Part 1: The Congress

India was independent in 1947 but the politics in India was started in after the Mahatma Gandhi was come in India.

Mahatma Gandhi is not the reason behind of the independence of India he is also the reason of the mind game of the politics;

Because Gandhi was known that the independence will not come only with non-violence because the britishers will not listening anything with the non-violence;

that's why he is makes the statement which enhance the violence but in the way of non-violence policy that's why the people and the British east India company will know his as a non-violent guy;

But in the other hand he do violence with his mind.

I am clearly oppose of Gandhi but I always do respect of his mind games which he was play at every time at every situation because Gandhi's goal is not only the independence of India his goal also to take and established the Indian National Congress Government in new India.

That's why he always do violence with he's mind. He plays with Britishers and Indians with his statements. For an example the people which was working In Hindu Mahasabha the Hindu Mahasabha was clearly come with the opposite mindset of congress. The Gandhi was always afraid of that the after the independence the Hindu Mahasabha will not form the government in the Azad Bharat because the many youth was support the Hindu Mahasabha that's why Gandhi was planed his death because he was knowing that he has threat from many but he was removing their security and also the Jawaharlal Nehru will helped in this master mind game then the result it the Nathuram Godse was killed the Gandhi and the all the blame was going on the RSS and the people of the Hindu Mahasabha.

Just think one litter thing Gandhi will become the popular and also the one of the impact person at that time before he dies the another day one attempt of murder of Gandhi was failed then why he removes he's security? Because after he's death it's open the door for easily established the congress and the Nehru government in Azad Bharat.

There are many others example of the mind politics of Gandhi the many people was suffer from it and dies from it like bhagat Singh.

Yes!! Bhagat Singh was martyr because he don't understand the mind politics of Gandhi. There are many young people was martyr because they don't understand the mind politics of Gandhi.

Now the question is how the Gandhi was playing his mind politics?

He is playing in a simple way of their mind politics he is do what ever he want with the help of his speech and with the help of Britishers.

Gandhi's speech always moved the people for the independence but in the other hand he will also become a part of th violence politics with the help of Britishers.

He knows that if the Bhagatsingh and The Chandrasekhar Azad will be long live then they will not support the formation of the Congress government because the Bhagatsingh and the Chandrasekhar was knowing that if the Congress Government was formed then it will be directly indicate that the Muslim league will form the new country and the partition will be occurs;

Because the Mahammad Ali Jinha will convies the Muslims for the new Muslim country which further name Pakistan and the Chandrasekhar Azad was knowing that if the partition will be occurs then the highly part of Punjab will be goes on Pakistan but the Gandhi wants to format the government of congress after the independence that's why the Gandhi's politics was the reason of the death of the Bhagatsingh, Sukhdev, Rajguru and Chandrasekhar Azad.

Here the not only Gandhi plays the mind politics with the people the main reason of Gandhi's mind politics is the Jawaharlal Nehru.

Because Gandhi wants to give the power of independent India to the Nehru that is the reason that why the Patel was not become the First Prime Minister of India. Because the Gandhi and Nehru was run here their Personal agenda to come in power.

But at here to form the full supportive government Gandhi also wants to convince the Dalits that's why he calls to the Dalits best leader the Dr. B.R. Ambedkar. Because the Gandhi knows that the Dalits will never opposed the Ambedkar.

At the other hand the Ambedkar firstly not convince with the thinking of Gandhi but the mind and the thoughts of Gandhi was very sharp then at the end the Ambedkar was haunt by the mind politics of Gandhi like Patel.

Ambedkar and Patel was not understand the mind game and the politics of Gandhi and Nehru because the Ambedkar and Patel was have the trust on Gandhi and Nehru that they both are doing for country they don't have their own benefits in the behinds.

But the Gandhi and the Nehru wants to become in power after the independence but in the other hand Jinha was also want to form the government then the Gandhi again plays his mind politics with the help of the Britishers.

Every one knows that the Britishers do the partition of India but the other hand if Gandhi wants then the partition was not be occurs.

Gandhi has many ways to stopped the partition like he knows that he has highly able of convincing power but he never convince the Muslim league and Jinha because if he convince then congress will not come in power the Hindu Mahasabha or Muslim league will formed the government but Gandhi don't want it and He knows that if Patel will become the Prime Minister then he also not formed the Pakistan but at here Gandhi wants that Nehru become the first Prime Minister of India.

That's why he never oppose the Partition of India.

After the Independence and after the death of Gandhi the congress and the Nehru started the real dirty politics in Independent INDIA.

With the accidently death of Sardar Patel, the closing and arresting the people's of Hindu Mahasabha and RSS, the Kashmir issue, Reservation policy, Article 370, Special provision for other religion, Castisem, Indo-China relation, India's new relation with British and many other things which going on and only available for doing the politics.

When the Ambedkar forms the special provision and the reservation policy he clearly mention that this policy was available only for 10 to 15 years after it will be removed and decreased according to that time situation but the Nehru was never want that the caste system was removed. That's why he never do that then the congress was playing this reservation act as a political card. After congress the all government knowing that the if they want to come in power the majority in India is Dalit population that's why they always play reservation act as a political card.
